

Employment Opportunity: Planning Data Information Internship

The Cambridge Community Development Department is seeking a part time Planning Information Analysis Intern. The intern will have the opportunity to work with a variety of planning related data using innovative tools and analysis methods. The intern should have experience collecting, compiling, analyzing and visualizing various types of information for technical and nontechnical audiences. The work will require the intern to determine which tools to use to both analyze and to present the data to the appropriate audience. Familiarity with the data resources found on the web sites of Federal and State statistical agencies is helpful.

Software tools with which the intern should be familiar include Microsoft Office programs (Excel, Access, Powerpoint, and Word) as well as ArcGIS. A desire to learn and adopt new tools is encouraged. Working knowledge of Adobe InDesign is very helpful.

The person hired will work on updating our existing public data products, assembling and prepping data for our open data web site, developing materials for reports and completing other analysis as needed. In addition the intern may be asked to assist with preparation of materials for an indicators accreditation program. Work will include housing, journey to work, land use and economic development depending on current needs

JOB REQUIREMENTS: Minimum qualifications for the position include the following:

- Ability to work independently;
- Ability to research data related topics;
- Experience using Microsoft Office programs – Excel, Outlook and Word
- Ability to build and modify Microsoft Access databases preferred;
- Experience with GIS mapping software, preferably ArcGIS, including the preparation of maps for use in publications, presentations and on web sites ;
- Excellent visual presentation skills;
- Experience with Adobe InDesign preferred;
- Excellent oral and written communication skills; and
- Education or experience in planning or related field desirable.
